

# POWER BUGGY *HYDRAULIC - HYDRALIFT*

THIS HYDRALIFT ATTACHMENT, COUPLED WITH FORKS, ARE PERFECT FOR MOVING MATERIALS OR SOLAR PANELS AROUND THE JOBSITE

WITH THIS MODIFICATION EVEN MORE VERSATILITY WILL BE ADDED TO THE ASE HYDRAULIC POWER BUGGY.

## Features

### Hydraulic Quick Connect

Once attached to the chassis, the HydraLift is easily attached to the system via Quick Connects on the driver's end of the vehicle.

### Forks Attachment

A 46" long forks attachment that has the capacity to lift up to 600 lbs with ease. It is easily attached and detached using a pin system.

### HydraLift

A heavy duty hydraulic arm that attaches to the Hydraulic Power Buggy. The HydraLift has been designed with modular capabilities in mind. Multiple future attachments will be coupled to the machine easily using a pin system.

### Counter Weight Chariot

When purchasing the HydraLift, a different chariot attachment is necessary to achieve the maximum lifting capacity. The chariot comes with bigger wheels, and a counter weight carriage.
