# SpecSeal® Series SSW Wrap Strip Tuck-In
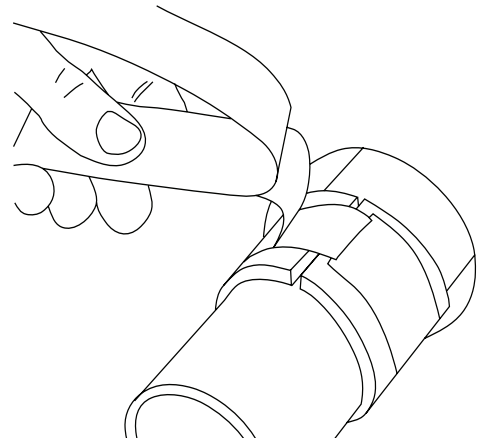

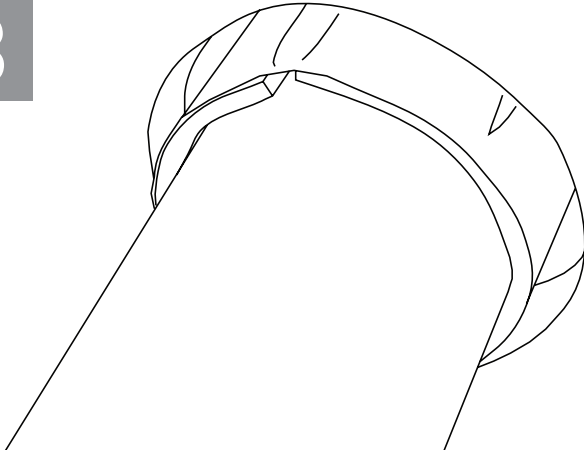

SSW

1

Tightly apply wrap strip around pipe/tube with ends of wrap strip tightly butted. See appropriate UL System for required number of Wrap Strip Layers.

**2**

Secure wrap strip in place using foil tape.

3

Slide wrap strip along pipe/tube into opening. See appropriate UL System for positioning requirements.

4

Apply SpecSeal® Firestop Sealant into annular space between wrap strip layer(s) and wall assembly. See UL System for acceptable Sealant types and sealant depth requirements.
